SUBJECT: Consider Approval of a Design for the Evers Road Huebner Creek Bridge and Authorize the City Manager to Submit an Application to the Alamo Area Metropolitan Planning Organization (MPO) for Possible Funding of the Reconstruction of the Bridge.

PURPOSE

To consider approval of a design for the Evers Road Huebner Creek bridge and authorize the City Manager to submit an application to the MPO for possible funding of the reconstruction of the bridge. The new design effort establishes a bridge crossing that will allow for greater frequency storm event to pass under Evers Road on Huebner Creek. If approved, this design will be submitted to the MPO by December 1, 2015 for their FY 2017-2020 Surface Transportation Program – Metropolitan Mobility (STP-MM) Call for Projects.

BACKGROUND

In August of 2015, the City Council approved funding for a detailed cost estimate for a new bridge across Huebner Creek on Evers Road, to be submitted to the MPO for possible funding. The preliminary design has been completed and is now being presented by IDS Engineering, Inc. to the City Council for approval, in the form of two options. The application must be submitted to the MPO by the December 1, 2015 deadline. If approved by the MPO, the City would be responsible for paying 100% of the engineering costs and 20% of the construction costs. The MPO expects to announce their approval of projects by April 1, 2016.

If the project is not funded by the MPO, the City will have to consider other funding mechanisms to repair the bridge, as it has deteriorated from the frequent flooding events.

FISCAL IMPACT

The design and preliminary engineering were funded in FY 2015 at $76,000.

DATE: November 17, 2015 M&C # 2015-11-17-08
TO: Mayor and Council
FROM: Kelly Kuenstler, City Manager
THROUGH: Kelly Kuenstler, City Manager
SUBJECT: Discussion and Possible Action on the creation of a Public Private Partnership Committee between the City of Leon Valley and the Leon Valley Historical Society.

PURPOSE: This discussion & possible action was requested at the Community Meeting held on November 7, 2015, regarding the possible development of a Public Private Partnership between the City of Leon Valley and the Leon Valley Historical Society.

FISCAL IMPACT

The initial formation of a Memorandum of Understanding between the City of Leon Valley and the Leon Valley Historical Society will not necessarily have a fiscal impact on the City of Leon Valley. The fiscal investment will be in the utilization of the City Manager’s time in the drafting and development of a Memorandum of Understanding for presentation to the City Council and for citizen input.

STRATEGIC GOALS

The 2014 Update to the City of Leon Valley’s 2010 Strategic Plan identified Economic Development as the first of seven major goals, with specific objectives being promoting business friendly practices; creating, reviewing & enforcing codes that impact economic development; promoting Leon Valley; creating & promoting a City Center and the reauthorization of street maintenance sales tax program. The development of a museum or tourist center at the Huebner Onion House location is in fact economic development and is in line with the 2010 Strategic Plan.

SEE LEON VALLEY

Social – To preserve the integrity of the history and heritage behind the Huebner Onion House.

Economic – Could increase economic activity in Leon Valley through tourists and visitors.

Environmental – If the project is designed and implemented with environmental concern
and integrity, there would be little to no effect on the environment. If the home’s condition deteriorates, there is an environmental concern.

Other Responses:

Department News:

Firefighters responded to a house fire on Kinman St.
Firefighters were training at the time of the call and arrived in just two minutes to find heavy fire and smoke coming from the second floor of the home (pictured). Firefighters entered the front door, cleared the house of occupants and extinguished the fire.
Damage is estimated at $60,000, and the cause of the fire was determined to be a faulty electrical cord from a table lamp. A family of seven was provided a shelter and assistance through the American Red Cross and their personal insurance company.
4th of July parade and festival
The Honor Guard once again led this year’s 4th of July parade, and the department worked to help manage a very large festival and fireworks display. The department reported only minor incidents during the event.

Swift-Water Technician training
Firefighter Sam Nevils and Michael Dizzine spent 40 hours of intense training learning advanced rescue techniques, and earned certification as Swift Water Rescue Technicians.

Firefighters responded to a commercial vehicle fire on Bandera Rd.
A van carrying several compressed cylinders with flammable fuel onboard was discovered on fire and firefighters changed tactics to protect the cylinders. This was a very dangerous scene that was quickly controlled, and an excellent example of why we work to keep people back from fire scenes. The response time was 3 minutes. The scene was captured on video and shared through social media.

**Working towards improvements in Health and Wellness**

The fire department continued to work towards improvements in Health and Wellness. Additions have included improvements in fitness, nutrition, and behavioral/cultural, such as adding the San Antonio Fire Department Chaplain services as resource contacts for our firefighters.

The department’s immediate goal is to become recognized by the American Heart Association as a “Fit-Friendly Worksite”. The designation encourages wellness in the workplace, and works to reduce the risk of heart attacks and strokes. More information is available by clicking the following link…

[http://www.heart.org/HEARTORG/GettingHealthy/WorkplaceWellness/Fit-FriendlyWorksites/Fit-Friendly-Worksites_UCM_460748_SubHomePage.jsp](http://www.heart.org/HEARTORG/GettingHealthy/WorkplaceWellness/Fit-FriendlyWorksites/Fit-Friendly-Worksites_UCM_460748_SubHomePage.jsp)

**Donation of fitness machine to Firefighters**

The fire department took delivery of a Step Mill fitness machine donated by Mrs. Sondra Grohman and Shining Star Energy. Mrs. Grohman loved her recent tour of our new fire station and asked if she could donate some fitness equipment to help keep our Firefighters safe and healthy. While this piece of fitness equipment is usually found in large fitness gyms and not a fire station....it's a perfect fit in ours.

This comes as a cost savings of $5,200 to Taxpayers and supports the fitness of our firefighters. We are sharing a picture of Mrs. Grohman with our new machine.

**Big improvement to the City emergency shelter plan!**

The department worked through a plan with NISD officials and the American Red Cross to finalize an emergency shelter agreement. The department believes that this new plan works to provide a clearer picture of preparedness to our citizens.

In the event of a large scale evacuation, the primary emergency shelter for the City of Leon Valley is now John Marshall High School. The overflow secondary shelter is Pat Neff Middle School, and we have two churches that serve as shelters for short-term or special needs patients; St. Johns Baptist Church and the Church of Latter Day Saints on Huebner. The American Red Cross and Leon Valley emergency services ran an emergency shelter drill operation to make sure we are ready in case a shelter is needed, and the shelter drill operation went great!

Department News:

USAA announced discount to Firewise Communities

Firewise Community is a designation awarded by the National Fire Protection Association to cities who have met best practice benchmarks in management that works to lessen the impact of wildfires in communities. The City of Leon Valley continues to be the only recognized Firewise Community in Bexar County. The 5% discount will be applied at each policy-holder’s annual renewal starting today. The amount will vary depending on the value and type of policy. For more information visit www.Firewise.org, contact USAA, or contact the Leon Valley Fire Department at 210-684-3219.
**Improvements to website Floodplain/Emergency Flood Response**
The Fire Department, Communications Department and Community Development teamed up to overhaul and add Floodplain management and emergency response additions to the City website. This includes additions that meet best practices outlined by FEMA, and also works to earn points in the City’s upcoming ISO flood insurance survey. Many of the improvements can be seen by clicking the following link.

**Flash Flood caught on video in Rimkus Park**
A local resident while walking in the park captured on video a flash flood in Huebner Creek during a time when it was not raining in Leon Valley. The video highlighted the problem of storm water runoff from development North in the City of San Antonio.

The video is posted on Youtube and is used for education purposes. The picture to the right is embedded with the link.

**Mandatory Detention**
The department teamed up with Public Works and Community Development to begin the process to change the Unified Development Code of the City of San Antonio to require Mandatory Detention in new development, and eliminate the option of paying a fee in lieu of providing onsite detention. The team developed a work plan and immediately began setting meetings to meet the objectives in the work plan.

**Retired Leon Valley Firefighter passes away**
The fire department was sad to report the news of the passing of retired Leon Valley Firefighter, Johnny James. The James family has been long-time, loved and respected residents of Leon Valley. The Chief ordered the station flag lowered to half-staff out of respect for his life, his family, and his service to our City. The department sent condolences to the James family, and the Honor Guard made the trip to Rockport, Texas to present an American and fire station flag to the family.

a. Discussion and Possible Recommendation – Silo Park Naming
Staff member Moritz explained that the new Silo park would eventually have to be formally dedicated as a park by the City Council and that the owner of the adjacent property where the silos are actually located may not be able to save the silos. She then explained that the park name would have no meaning to future citizens. She stated that she had researched the deeds to the property back to the 1800’s and found that the property owner that built the silos was most probably the Steurenthaler family. She recommended that the name be used for the new park. One of the Commissioners added that the name could also include “silo” and recommended that the park be called the Steurenthaler – Silo Park. A motion was made by Commissioner Parker to accept the name Steurenthaler-Silo Park. The motion was seconded by Commissioner Gabriel and the motion carried unanimously.
b. Raymond Rimkus Park – FY '16 Budget
Staff member Moritz explained that the FY 2016 budget had been approved by the City Council and several items had been funded for repairs and for new items at the parks. Chairman Christensen informed the Commission that the budget would be discussed at the next few meetings, as the FY 2017 budget would need to be prepared for review by the City Manager in the spring.

c. Evers Road
Staff member Moritz explained the progress regarding the Evers Road mill & overlay project, noting that the improvements had been completed. Staff member Moritz explained that the operators of the Forest Oaks pool had approached the City Council about potentially giving the facility to the City Council. City Staff presented an updated to of the Master Plan Amendment process and noted that the 
Master Plan Amendment process is essentially back on schedule, and staff anticipated that 
work will continue to progress on time.

and the proposed “Action Plan” to annex the adjacent cemetery and Community Center 
property. The Commission requested that the concern be forwarded to the Council for further 
direction. The second item was to assess the actual need for a turn lane to be added to 
Huebner Road. Staff noted that the Director of Public Works and the Police Chief indicated that 
the turn lane was not needed for public safety and recommended that the item be removed 
from the action plan.

Acknowledgement Page. Staff then indicated that the Tree Advisory Board would develop a recommendation to add Trees to the Functional Planning Area segment of the Master Plan.

The Commission concurred with the recommended changes to the Master Plan, however the Commission requested that the Leon Valley Historical Society review the Historical Background of the Master Plan and report back to the Zoning Commission their assessment of this component.
