

## CRIME CONTROL CONCERNS

---

***Q: The water tower has graffiti. When Public Works employees worked on it, they stopped short of completion.***

A: The maintenance crew will not climb the water towers when the wind is blowing above 10mph, as it was on that day, for safety reasons. They were able to paint over most of the graffiti, but had to stop and get off the tower due to the increase in wind speed. When the crew went back to complete the job, a hawk kept dive bombing the employee, as she was protecting her nest on the top of the tower. The employee was able to complete the job despite the attacks.

---

***Q: An unnamed neighbor wants to report suspicious activity at a residence.***

A: This type of activity needs to be reported to the Police Department while it is occurring.

---

***Q: A resident had front door kicked in several weeks ago. What is the crime rate in Forest Oaks? What is theft of service? Do we still have the ability to go online and check what crimes are committed in Leon Valley?***

A: The type of report you are requesting is available at any time by visiting [www.crimereports.com](http://www.crimereports.com). Theft of service is passing not paying for a service that you know is provided only for compensation. Examples of this are a taxi ride, or a meal at a restaurant.
