III. Tour of Old Mill and Silo Parks.

- Old Mill Park discussions are as follows:
 - Park is ready to have the fitness area, playground, pavilion, picnic area, and benches installed.
 - The proposed placement of the pavilion and playground is right over 2 hackberry trees.
A slight adjustment to the plan should be made to save the trees.
 - Some of the crape myrtles planted last year have died and need to be replaced.
 - Once completed, the walking path should be marked to indicate distance walked.
 - There is opportunity to plant an additional 75-100 trees.
- Silo Park discussions are as follows:
 - Park is already in operation. It includes a path and a fitness area.
 - Some of the newly planted trees have died and need to be replaced.
 - The walking path connecting the Canterfield subdivision to the park has not been constructed.
This project has a lot of complexities because of the steep grade and the fact that the connecting piece to Canterfield is part of a drainage system.
 - There is opportunity to plant an additional 75-100 trees.
