Bandera Road Superfund Site
Background Information (contd.)

• Public comment period on Proposed Plan closed in October 2011 – since then:
  – EPA worked with PRPs who wished to collect and submit additional data
  – EPA and TCEQ have been negotiating ROD
  – EPA now estimates ROD to be finalized in August 2013
  – Remedial Action will begin after ROD finalized
EPA Activities for 2012 - 2013

• In 2012
  – Continued data through May 2012
    • Sampled City wells and monitoring wells
    • Sampled vapors in select buildings
  – Worked with PRPs and TCEQ on ROD content

• In 2013
  – Plan to perform sampling event in June
  – Once **ROD** finalized:
    • Begin remedial design and some remedial action – depends on PRP negotiations **
AOI 2 - Identified Risks
Austin Chalk
(Southern Plume)
RI Report (contd.)

• AOIs 3, 4, 5
  – EPA may do more in these areas, not considered significant sources or risks

• Tone of RI is:
  – Six Edwards wells were plugged, plug additional Edwards wells if needed
  – Most future work will be to address vapors and Austin Chalk groundwater
Feasibility Study (FS) Report
FS Report

- Screening of remedial alternatives
  - Nine criteria used in screening process

- Supports remedy selection for ROD
FS – Nine Evaluation Criteria

1. Overall protection of human health and the environment.
2. Compliance with Applicable or Relevant and Appropriate Requirements (ARAR)
3. Long-term effectiveness and permanence
4. Reduction in toxicity, mobility or volume through treatment
5. Short-term effectiveness
6. Implementability (technical and administrative)
7. Costs
8. State acceptance
9. Community acceptance
FS Report (contd.)

• For groundwater treatment, considers:
  – No further action
  – Limited action – MNA
  – Municipal water supply – connecting residents
  – In-situ bioremediation – Austin Chalk groundwater
  – Pump and treat – Austin Chalk groundwater
  – Evaluate wells with unknown completions
    • Numerous wells in the plume area with unknown completions due to obstructions, etc.
    • Numerous known former wells that were covered during development
FS Report (contd.)

- For vapor treatment, considers:
  - Indoor air monitoring in area buildings.
  - Remove soils in AOI 1
  - "De-pressure" source areas (SVE)
Proposed Plan

- Proposes **INITIAL** remedial alternatives
- Public Comment Period closed October 2011
- EPA and TCEQ working to finalize ROD
- Final ROD expected August 2013
Indoor Air Alternatives (AOI-1 Building B1)

Agenda Item 4a

CITY COUNCIL MEETING OF THE CITY OF LEON VALLEY, TEXAS
MAY 31, 2013

The City Council of the City of Leon Valley, Texas met on the 31st day of May, 2013 at 12:30 p.m. at the Leon Valley Conference Center located at 6421 Evers Road, Leon Valley, Texas, for the purpose of the following business, to-wit:

SPECIAL CITY COUNCIL PLANNING WORK SESSION, 12:30 P.M.

1. Call the Leon Valley Special City Council Meeting to Order, and Determine a Quorum is Present. Mayor Riley called the Special City Council Meeting to order at 12:30 p.m. with the following City Council Members in attendance: Ruiz, Reyna, Diaz, Dean, and Biever.

City staff in attendance: City Manager Longoria.

2. Discuss Meeting Expectations. The Mayor, City Council, and City Manager briefly discussed that all of the topics were included in today’s agenda. Also discussed is that a consensus will be reached by the work session’s end and staff will be given direction.

3. Review and Status of the Goals Set Last Year
   A. Discuss Update of the 2010 Strategic Plan. The Mayor, City Council, and City Manager discussed the update of the 2010 Strategic Plan from its creation through the current date.

4. Economic Development
   A. Status of Projects. A status report of the Economic Development Projects was presented, including Items B – D.
   B. Town Center & BRT Transit-Oriented Development Opportunity
   C. Changing the City’s Economic Development Organizational Culture
   D. Create City Economic Development Program.

5. Infrastructure
   A. Street Maintenance Issues. The Mayor, City Council, and City Manager discussed challenges related to Street Maintenance Issues. The discussion involved the update of the City’s legislative bill which will allow for a suspension of the street maintenance and sales tax use tax for renewal on a ten-year basis, if not vetoed by the Governor.
   B. City Parks. The Mayor, City Council, and City Manager discussed issues and challenges pertinent to the improvements for the following City Parks, as follow.
      1) Natural Area
      2) Triangle Park
      3) Rimkus
      4) LC 17 Project
      5) Pocket Park at Silo Property

6. Communications
   A. Create "Coffee with the City Council" Public Gathering. It was noted that some members of the public may not want to walk or be able to walk in order to participate in the current Walk with the Mayor. City Council Members also noted they would like
to see the public component expanded to allow the entire City Council to participate in a relaxed setting without specific meeting time restrictions.

B. Avoidance of Labels / Expectations
The more we advertise our ‘green’ initiatives, the less businesses may want to come. In our branding, we should use an outward image.

7. Governance
A. City Council Meeting Schedule. The City Council discussed reducing City Council meetings from two to one per month as a means of efficiency. The consensus reached was to check out the legal requirements and logistics, run the concept by the City’s Department Heads and to do a trial period in the Fall.
B. Agenda Review Process. There were some questions raised about the City Council having greater input into the Agenda Review Process. It was noted that producing the agenda already requires significant input from the Mayor, the City Manager, and the City Attorney. Expanding the input process may make the agenda packet production even more challenging to complete with too much additional input. The City Council reviewed the process for adding items to the agenda under the City Council Rules of Conduct.
C. Issues Related to Waiver of Attorney/Client Privilege. Discussed issues related to the liabilities that can be created related to the City Council waiving its Attorney/Client Privilege.

8. Budget
A. Fiscal Year 2014 General Fund Budget. Discussed the pertinent considerations related to developing the City Manager’s proposed budget for Fiscal Year 2014.
B. Identification of New Revenue Sources. Discussed the potential for new revenue sources as noted below.
   1) Sales Tax Projections
   2) Crime District & Economic Development Tax. Discussed the possibility of calling a Special Election to allow the City’s voters to determine if they are interested in a Crime Prevention and Control District versus increasing the City’s Economic Development Tax.
       (a) Call for Election. Discussed the next uniform election date as being in November 2013 for a special election.

9. City Manager Expectations
A. Establish Priorities and Focus for City Management Team. The Mayor, City Council, and City Manager established a list of priorities and focus for the City Management Team for the next 12 months.

10. Adjourn. Mayor Riley adjourned the meeting at 4:20 p.m. without objection.

Agenda Item 4b, 4c

CITY COUNCIL MEETING OF THE CITY OF LEON VALLEY, TEXAS
JUNE 4, 2013

City staff in attendance: City Manager Longoria, City Attorney Zech, City Secretary Willman, Economic Development Director Mora, Interim Fire Chief Valdez, Interim Assistant Fire Chief Lawson, Police Chief Wallace, and Public Works Director Vick.

Councilman Ruiz led the assembly in the Pledge of Allegiance.

2. **Firewise Communities USA Designation and Presentation.** Interim Fire Chief Valdez introduced Mr. Patrick Allen, Firewise Coordinator, Texas A&M University Forest Service, and Will Bettner, the Project Manager with Texas A&M University Forest Service,

Councilman Dean thanked Interim Fire Chief Valdez for completing the Defensible Space Project at the Natural Area and qualifying the City in obtaining its designation as a Firewise Community USA Designation. Mr. Allen presented Interim Fire Chief Valdez with a sign that will be erected along the City’s right-of-way and Mr. Bettner presented the Interim Fire Chief with a framed poster related to the Firewise Community designation.

3. **Citizens to be Heard and Time for Objections to the Consent Agenda.** There were no objections to the Consent Agenda.

**Citizens to be Heard.** Amanda Kyle, 6430 Huebner Road, reported the flooding that occurs since 2006 when a Buddhist temple did landscaping; moving trees, digging holes in which to put the trees and landscaping debris, and built an asphalt parking lot on their land which changed the topography of the land leading to flooding issues for a number of homes located at Huebner Road near Sawyer Road. Ms. Kyle noted that due to the flooding that started after the improvements made by the Buddhists in 2007, she installed gutters and improved drainage in her backyard because she lives in a low area. She stated that Mary Hale, a neighbor, brought the matter to the attention of the Buddhists. Since then, trenches were dug behind the fencing but reported that the trenches have become filled with debris. She noted further that with the May 25 flooding that occurred from the significant rainfall, she had taken photos of the affected properties. She concluded that the homeowners don’t know what to do. The affected homeowners decided to address the City Council asking for assistance or guidance as to what can be done. She noted that she had checked with persons who have lived in the neighborhood for 30 plus years who affirmed that the flooding problem started after the Buddhists made landscaping improvements in 2006 – 2007. She noted that she had emailed Community Development Director Flores and Public Works Director Vick just a recently as the Friday preceding tonight’s City Council Meeting. She distributed photos of the flooding.

Carol Hardy addressed the City Council on behalf of her mother, Mary Hale, 6422 Huebner, who was in the City Council Chambers. Ms. Hardy also noted that the flooding issues resulted since the improvements were made in the 2006 timeframe. She detailed the history of the property before it was acquired by the Buddhist monks for a temple and the landscaping improvements that were made including ripping up trees, leveling the land, and building a parking lot at the top of the hill which changed the topography of the land leading to the natural runoff of water creating a storm drainage water flow...
directly down the hill off the parking lot onto the five houses in the neighborhood. She reported that flooding occurred in 2007, in October 2011, in February 2012, and on May 25, 2013. She noted that there are civil laws that say that people are liable for the natural runoff they create; that they have a responsibility. She noted that several of the neighbors had written letters to the Mayor and City Council Members. She reported that some of the affected property owners had spoken with the head of the Buddhist order in Austin. The response was to dig the trenches without opening at either end. Now that the trenches are filled with debris, the water runs over the top through the fencing and onto backyards of neighboring homes. She noted that Ms. Hale has had several thousands of dollars in damages resulting from the flooding each time it occurs. She stated that the City Council has a responsibility to enforce the natural runoff of the water. She concluded by stating that the Buddhists should be made to do some repairs or changes that will positively impact the natural runoff. Ms. Hardy distributed photos of the flooding.

Vernon Shettle, 6426 Huebner, noted he has lived in Leon Valley at the same address for 32 ½ years. For the first 25 years, there was no water buildup to speak of. After the Buddhists made the landscaping improvements in 2006, flooding has occurred in an enclosed patio/porch on his property although there has not been any flooding in his home. He confirmed knowledge that Ms. Hale’s home has continually flooded as the previous speaker noted. He noted that he and the neighbors tried to bring the flooding to the attention of the City Council in 2007 and that only Councilman Reyna had responded. He reported that he did not hear from anyone else on the City Council or from the City Manager at the time. He concluded his remarks by asking for assistance and that the neighbors are turning to the City Council first.

Cindy Shenk, 5713 El Verde, addressed the City Council noting that she has lived on El Verde Road her entire life. She referenced that she lives towards the end of the street. She reported concerns with the fact that no sirens went off with such a heavy rainfall as occurred on May 25 and May 26. She called the Leon Valley Police Department at 9:34 a.m. for what she regarded as an emergency because she and her husband were cut off from evacuating from their home on El Verde towards Bandera Road. She repeated what she reported was the conversation she had with the Police Dispatcher about the gate at the end of El Verde Road being locked blocking off their only other evacuation route. Ms. Shenk stated that the Police Dispatcher informed her unlocking the gate was at the discretion of the Fire Department to take care of. Ms. Shenk stated that she repeated that some of the neighboring homes had water in them with no way out El Verde Road and that they would have to evacuate through the locked gate. Ms. Shenk stated the Police Dispatcher repeated the statement about the Fire Department adding it sounded to her that there seemed a lack of concern. Ms. Shenk asked for the telephone number for the Fire Department so she could convey her emergency directly and was told she could not have the telephone number. She addressed the City Council stating that it was not for the Police Dispatcher to determine what the emergency was. She concluded her remarks reporting that she met with Police Chief Wallace on Tuesday, May 28 and had a very nice conversation with him. She was informed that the recording devices were broken. She stated that she doesn’t understand why the City doesn’t have equipment that is working and that she does not think the Police Dispatcher’s tone was appropriate. Ms. Shenk shared some pictures of the flooding.

Consider Action Amending Ordinance 12-008 that Established the 2012 Bond Program Oversight Committee, Amending the Committee Structure and Membership, Appointing Two City Council Liaisons to the Bond Oversight Committee, and Appointing a Chairperson to the Bond Oversight Committee, M&C # 06-05-13. Following a presentation by City Manager Longoria, which detailed that the amendment is needed to update the City Council liaisons following the changes in the City Council after the May General Elections, the City Council considered action, as follows.

   The City Council asked if staff had inquired if there was any interest by other Committee Members in serving in the leadership position. The City Manager noted that the

question had not been asked. He suggested that the Bond Oversight Committee meet and perhaps bring back the item. There was some City Council discussion about called meetings and the need to appoint a chair in the event that something the Bond Oversight Committee needs to attend to occurs. Mr. Longoria noted that the Bond Oversight Committee has a vice-chair, Olen Yarnell, if the need arises.

Councilman Dean noted that Pedro Esquivel had said he would take the chairman position and therein placed Mr. Esquivel’s nomination for consideration by the City Council. Councilman Reyna seconded the nomination of Pedro Esquivel. Voting Aye: Ruiz, Reyna, Diaz, Dean, and Biever. Mayor Riley announced the motion carried.

Motion by Councilman Reyna and second by Councilman Biever to adopt an ordinance amending Ordinance No. 12-008, Chapter 1 “General Provisions, Article 1.06 “Boards, Commissions and Committees” of the City of Leon Valley Code of Ordinances, Section, 1.06.02, 2012 Bond Program Oversight Committee; amending the Committee Structure and Membership, Appointing Two City Council Liaisons, and Appointing a Chairperson [Councilmembers Jack Dean and Abraham Diaz, and Pedro Esquivel as Chairperson.]

Voting Aye: Ruiz, Reyna, Diaz, Dean, and Biever. Nay: None. Mayor Riley announced the motion carried.

Adopted Ordinance No. 13-025 - An Ordinance amending Ordinance No. 12-008, Chapter 1 “General Provisions, Article 1.06 “Boards, Commissions and Committees” of the City of Leon Valley Code of Ordinances, Section 1.06.03, 2012 Bond Program Oversight Committee; Amending the Committee Structure and Membership, Appointing Two City Council Liaisons, and Appointing a Chairperson. [Committee Structure and Membership, Section 2) Council Member Jack Dean and Council Member Abraham Diaz are hereby appointed to serve as the BOC Committee Liaisons, Section 3) Effective with the adoption of this ordinance amendment, the Chairperson shall be Pedro Esquivel.]

Discussion Agenda

9. City Manager’s Report (Longoria)
   A. Presentation Reporting on the Weekend Flooding in the City of Leon Valley and Discussion of Drainage Problems. The City Manager acknowledged that as the citizens discussed during the Citizens to be Heard component of the agenda, the City experienced some serious flooding over the weekend. He scheduled a report from the Fire Department, the Police Department, and the Public Works Department, so the City staff could report on what happened, and how the situation was handled. Interim Fire Chief Valdez reported the rainfall officially for the area was 9.87 inches, the second most rainfall in the area’s history. It is the largest rainfall incurred in May. In 1998, the rainfall was 11.26 inches of rain. There were four homes evacuated, no loss of life or injury reported. We had 12 incidents during the time of the flood, to assist the public, to activate alarms, provide emergency management services, and do welfare checks. We had five homes confirm water inside the living area; we had several homes with water in garages throughout the City. The flooding resulted in a joint disaster area declaration by Bexar County and San Antonio. What this means to Leon Valley
is that we’ve done a damage assessment. We’re submitting that loss with them to try to recuperate some federal funds for reimbursement for any loss. In monitoring the weather, the floodgates at Poss and Evers were closed right before 6 p.m. Between 6 p.m. and 7 p.m., Poss Road flooded from the Little League entrance to Evers Road including Alley Kinman Road including Public Works. Mr. Valdez detailed the timeline relating activities that the Fire Department took. He noted that the gate at El Verde was opened right before 10 a.m. When the Fire Department responded, the gate was closed; with some debris that had washed up against the chain link fence backing-up the water. He stated the Fire Department immediately opened the gate and called for a full crew to bring some water vacuums and equipment to get the water out of the homeowner’s house. He noted that from that point on, the Fire Department monitored the gates until everything was opened. Photos were shown that reflected the flooding in various parts of the City. The amount of the water and the intensity with which rainfall came down resulted in the flooding problems. He reported that the Fire Department met with Bexar County Flood Control. The Fire Department removed the chain link from the fence and erected a sign on the gate to indicate its location. Police Chief Wallace reported that two officers came in at 6 a.m. One of the officers drove down Poss Road about 5:30 a.m. She was able to make the route at that time. He noted further that two officers on duty with help from the Fire Department and from the Public Works Department handled the situation. Chief Wallace reported that some residents called in about deer going down the creek during the flooding in addition to concerns about animals in backyards as well. Public Works Director Vick reported that rain during the preceding weeks that saturated the ground and runoff from streets contributed to the flooding. He noted that the Public Works Department did what it could when it could. He detailed damage at Raymond Rinkus Park and in the surrounding area. He noted that the Park had to be closed for an entire week due to the water still on Park grounds. He reported that the Park was restored. There were $5,636 in repair materials. The Public Works staff hours amounted to 408 staffing hours of on-duty time with 6 hours of overtime. The City Council asked where the staff costs were absorbed. Mr. Vick stated the City is hoping to be part of the reimbursement from FEMA funding. He noted that the Public Works also monitored the weather conditions on Friday afternoon. The City Council asked if there were other parks damaged for which the Public Works Department is responsible. Mr. Vick acknowledged that the Public Works Department is aware of the problem caused by the Buddhist monks’ [changes]. He noted that the City has tried over the years to work through the situation, including having the ditches dug as a preventative measure. He noted that at the time the City of Leon Valley did not have a Stormwater Program in place. Since that time, the City now has a Stormwater Program in place which will allow the City to address the situation resulting from the changes to the land that allows water to runoff and impact someone else. He noted that his hope is to get some engineering to resolve the runoff. He noted that there are some homes that are affected that short of digging up an alley to create a swell, there is nothing the City can do. The City Council asked if the flooding count included the homes flooded on Huebner. Staff responded that it did not include the homes on Huebner. It was noted that the City is impacted by apartment units built in the City of San Antonio along Huebner Creek to some extent. Mr. Vick noted there
are retention ponds but with the level of rain that fell, the retention ponds overflowed. Councilman Diaz noted he received an email the day of the flooding from a resident on El Verde Road related to flooding and that the gate was not opened. Councilman Diaz noted that he asked in his email if there was a protocol to open the gate. He acknowledged the situation involving the gate which belongs to Bexar County and asked if the situation with the gate being locked had been resolved as heavy rains can occur within an eight hour period in Texas at any time. He noted concern about an evacuation route on El Verde Road and a protocol plan to open the Bexar County gate when flooding results in flood gates in other parts of the City to be closed. Councilman Diaz continued his inquiry asking if Bexar County had been called regarding maintenance on the surrounding land so that the water flows through faster. He noted that the City’s right-of-way had been overgrown as well. He noted there was a lot of debris along El Verde Road following the flooding. He asked if there was a way to get the citizens’ lives back to normalcy by cleaning up their areas first before cleaning up the City’s park. Mr. Longoria reported that the 38 acres surrounding the Bexar County gate on El Verde needed is owned, maintained, and controlled by Bexar County. The Fire Department in a typical situation with rain will go out and open the gate, that is part of the protocol. He noted that what happened is that this was a flood that compares to the 1998 flood, with persons stranded in the water. Mr. Longoria noted that the City’s Fire Department was deployed with high water rescues and evacuating homes. Mr. Longoria stated that it helps to keep in context that there was severe flooding and the City’s resources were deployed. He reported that the City has met with Bexar County to clean-up the area and get the gate situation resolved. He noted the priorities are always with evacuating citizens from their homes. He indicated the City’s response in terms of priority was proper; with evacuating persons first, the flood receded, then the City got into clean-up mode. He noted that part of the clean-up included the Fire Department helping citizens who had water in their home. Councilman Diaz asked if it is possible to split the crews up. Mr. Longoria asked that the discussion about the matter be done off-line. Councilman Ruiz asked if there were any businesses affected. He reported that his business was flooded. Mr. Vick noted that that possibly one other business was affected. There was brief discussion about changes by private property owners who have made changes to their land which may be impacting Councilman Ruiz’ business as well as possibly another business in the area.

B. Report on Upcoming Training Opportunities. Mr. Longoria reported on the various training opportunities conducted by the Alamo Area Council of Governments, the Texas Municipal League and the Hogwild 2013, an annual legal work session conducted by Denton, Navarro, Rocha, and Bernal on June 28 by professionals. He noted that this year’s event features amongst others, Jeff Chapman related to public construction procurement. There will be other legal topics included as well.

C. Report on City Branding. Mr. Longoria noted that he reported to the City Council on Friday at the City Council – City Manager Retreat about the progress on branding. He noted he emailed the logos and seals to the City Council. He noted that the timeframe for bringing back information to include a public

component during a City Council Meeting in June or July. He noted also that the next Branding Subcommittee Meeting will be posted in the event that a quorum or more of City Council Members want to attend on June 12. He also noted that the City Council is scheduled to have a formal picture taken on June 18 at 5:30 p.m. as well as individual photos for the new City Council Members for placement on the City Council’s webpage.

D. Future Agenda Items.
1) Next Quarterly Update and Dialogue between the City Council the Leon Valley Economic Development Board of Directors, June.
2) Bandera Road Site – CAG Presentation, June 18.
3) Appointments to the 2012 Bond Oversight Committee and the Leon Valley Economic Development Corporation Board of Directors, June.

10. Citizens to be Heard. Matthew Hodde, 5813 El Verde, noted his disappointment with hearing about the Police Dispatcher’s response. He noted that he had similar response in the past, like why are you bothering me. He said he was not sure about the recording because every news show has recordings from 9-1-1 dispatch calls. He noted it is very important to figure out what the issue is with the recording not working here but that we need to get that fixed. He noted the 8 inch lowering of the bridge that was mentioned was great for persons upstream but that allows more water to flow in downstream. He reported that the Interim Assistant Fire Chief Lawson came down twice to listen to his and a former resident’s concerns regarding what has happened through the years. They were counting on what Bexar County being well on their way or finished with their portion of the flood control project. He indicated he understands that sometimes projects stretch out and there is little that can be done. He also thanked the City Council Members who have expressed an interest in the flooding. He invited those who want to come down the street to see what is going on and he will answer questions about what happens when we do get a rain like this.

Paul Carter, 5709 El Verde, reported he came home from vacation to find his home full of water. He noted that his neighbor was present in the City Council Chambers this evening. He reported that her husband and son cleared the debris so the water would travel freely. He stated he understood that the City’s Fire Department had a key to the gate to the Bexar County fence. He asked if that was not true. No siren went off despite the very heavy rainfall. He noted that although the problem with the runoff being inhibited from the overgrown vegetation is not the responsibility of the City of Leon Valley, it is the responsibility of the City of San Antonio. He noted that is their drainage easement. He acknowledged that he lives in a valley but that he is tired of trying to deal with the situation. He asked that the City of San Antonio be approached about keeping the drainage easements clean. He noted that his property has been flooded three times since 2008. He noted that he lives in the 100 year flood plain not an every year flood zone. There has to be a way to clear it so that one should be able to drive a car through it. He asked for the City’s assistance with the matter.

Pedro Esquivel, 7207 Forest Meadow, thanked the Mayor and City Council for the opportunity to continue serving the citizens of Leon Valley. He noted that it will be difficult to follow the leadership of Councilman Abraham Diaz on the Bond Oversight

Committee. But he noted that with the support of the fantastic members on the 2012 Bond Oversight Committee, he will learn and assured the Committee will do what is best for the citizens of Leon Valley.

11. **Announcements by the Mayor and Council Members.**
Councilman Reyna announced that the City’s legislative initiative, Senate Bill 475, is still sitting on Governor Perry’s desk and has not been vetoed. He congratulated Mr. Rudy Garcia and Mr. Pedro Esquivel on their respective appointments. He thanked the City Council for their vote of confidence in his selection as Mayor Pro Tem.

Councilman Diaz thanked the City Manager and the City’s directors who conducted an orientation for the two new City Council Members. He acknowledged that he is glad the City staff is in charge and the City is running well because of staff. He issued a challenge after tonight’s meeting to shake the hands of the firefighters for what they do. It was related to the City Council and citizens that persons go down and thank firefighters. He asked that thanks be sent to police officers through Chief Wallace as they patrol the City and are not housed at the Police Station. He thanked both the Police and Interim Fire Chiefs for their work.

Councilman Dean noted that he thought that Councilman Diaz’ remarks were well said.

Mayor Riley read that on June 8 at Jefferson High School from noon to 4 p.m. in the cafeteria there will be an immigration forum conducted by Congressman Joaquin Castro. Mayor Riley asked that an agenda item be placed on the next City Council Meeting regarding flooding and what the City can do so that the dialogue can be continue.

**Executive Session**

12. The City Council of the City of Leon Valley reserves the right to adjourn into Executive Session at any time during the course of this meeting to discuss any of the matters listed on the posted agenda, above, as authorized by the Texas Government Code, Sections 551.071 (consultation with attorney), 551.072 (deliberations about real property), 551.073 (deliberations about gifts and donations), 551.074 (personnel matters), 551.076 (deliberations about security devices), and 551.087 (economic development).

There was no Executive Session conducted under this agenda item.

MAYOR AND COUNCIL COMMUNICATION

DATE: June 12, 2013
M&C # 06-09-13

TO: MAYOR AND CITY COUNCIL

SUBJECT: CONSIDER ACTION ON AN ORDINANCE AMENDING THE STRUCTURE AND MEMBERSHIP, INCLUDING CITY COUNCIL LIAISON ASSIGNMENTS FOR THE COMMUNICATIONS, AND SPECIAL EVENT/FESTIVAL, SUBCOMMITTEES

PURPOSE

On January 26, 2013, the Leon Valley City Council conducted a Town Hall Meeting to consider among other business, the means by which to improve City communications, determine branding, including updating the City’s identity, and to establish the basis for a future festival incorporating the elements recommended by the facilitating consultant, Mr. Mike De La Garza, arising from the public component exercises.

The City Council created the three committees: Communication, Branding, and Special Event/Festival, to function as subcommittees of the City Council with the adoption of Ordinance No. 13-009 on February 19, 2013.

Each of the three committees; communications, branding, and special event/festival will serve as a sub-committee of the City Council; with the Mayor and City Council Members fulfilling the positions of the Chair and Vice-Chair, two City Council Members (Mayor and City Council Member or City Council Member and City Council Member) on each of the three committees, to allow equal participation by the Mayor and each Council Member.

The net effect is for the residents of the City of Leon Valley to benefit from the Mayor and City Council’s cumulative years of service and understanding of the unique identity and spirit that are Leon Valley.

An amendment to the enabling ordinance is attached to allow the City Council to consider updating the City Council liaison positions reflecting the change in City Council make-up following the May elections and completing the transition.

RECOMMENDATION

That the City Council adopt the ordinance amending the enabling ordinance, Ordinance No. 13-009, to reflect the transition of the City Council following the May elections with the following City Council Liaisons presented in their respectively requested positions:

- Communications Committee
  - Councilman Jack Dean, Chair
  - Councilman Abraham Diaz, Vice-Chair

- Special Event/Festival Committee
  - Councilman Paul K. Biever, Chair
  - Councilman Ricardo Ruiz, Vice-Chair
FISCAL IMPACT

There is no funding impact related to the changes requested in this ordinance amendment.

S.E.E. IMPACT

Social Equity – To ensure social equity, invite economic development, and demonstrate environmental stewardship through the cumulative wisdom of the City’s residents, and other community stakeholders, working through its Mayor and City Council Members, using the guidance of staff and professional consultants in a process designed to improve communications, branding, and establish a citywide festival.

Brief Recap

- Town Hall event in January 2013 commenced rebranding effort
- About 50 participants were asked to identify Leon Valley strengths & advantages, and weaknesses & concerns
- Results collected and catalogued
- Survey asked participants to rate the results of the Town Hall, along with other issues related to rebranding
Online Survey and Additional Input

- 87 respondents
  - Members of boards and commissions
  - Members of the Chamber of Commerce
  - Members of the Branding Committee
  - Open access promoted through Leon Valley website

- Additionally, meetings were held with:
  - Leon Valley Area Chamber of Commerce
  - Leon Valley Historical Society
  - Leon Valley Economic Development Corporation
  - Jim Reed, San Antonio Medical Foundation
Leon Valley Insights

- A community with pride in its city, confidence in the city staff and services, and trust in its leadership
- A community that sees itself well positioned to take advantage of its proximity to the Medical Center, and other economic generators
- A community that sees Bandera Road as a main strip of the community, but offers too many go-through vs. go-to options
- A community that wants to revitalize its retail and business presence to take advantage of the traffic.
Current Leon Valley Logo
The Plan

- Consider the notion of Valley, along with Lion, and how those two could merge to represent an image that portrayed:
  - Strength and resolve
  - A quiet confidence
  - A fertile valley, ready to plant and grow business and community
  - A community with presence and awareness
In the Creation of a Logo

- The five elements to be considered and achieved
  - Memorable
  - Relevant
  - Evokes an emotion
  - Timely and Timeless
  - Easy to Replicate

MAYOR AND COUNCIL COMMUNICATION

DATE: June 18, 2013
M&C # 06-12-13

TO: MAYOR AND CITY COUNCIL
SUBJECT: REPORT AND DISCUSSION RELATED TO CITY PHONE SYSTEM IMPROVEMENTS

PURPOSE

The purpose of this agenda item is to update the City Council on the new and greatly enhanced telephone services using new technologies which will make best use of the City’s taxpayer dollars.

FISCAL IMPACT

No new tax dollars will be spent; this initiative will actually demonstrate savings in our current operating budget.

S.E.E. IMPACT

Social – Cities that promote a superior quality of life provide excellent customer service. Acquiring a new telephone system will facilitate communications with our citizens and community stakeholders and demonstrate significant savings for the City’s taxpayers.

Economic Development – Not applicable

Environmental Stewardship – Not applicable

Overview

- During the Municipal Facilities remodel the administration staff will be moved to the Conference Center
- Phone lines as well as computer wiring will have to be installed
  - The City currently has 5 phone systems with no interconnection ability
  - High AT&T costs
Options were carefully examined that would provide the
– Best customer service and disruption of services during the relocation
– Cost savings to the City
– Most flexibility
Overview
Continued

• Based on the criteria a hosted VoIP phone system was selected as the best solution
  – Provide better customer service
    • All departments of the City will be on the same phone system
    • Can transfer calls to ANY department
    • Unified voice mail system
    • Direct inward dial numbers for all staff
    • All numbers remain the same
Overview
Continued

– Least disruption in services
  • Phones are pre-programmed and ready to plug into PC where data connection exist

– Cost
  • Saves the City $45,000 annually on phone costs
  • No capital expenditure
  • No wires to run for phones at the Conference Center when move occurs
Overview
Continued

– Short-term solution (most flexible)
  • City can re-evaluate phone system with the new facility. At the end of 24 months the City can decide to keep the new phone system or go with a different system
Overview
Continued

- The City requested quotes from various vendors for a hosted VoIP phone system
- Altaworx provided the best cost and solution
- City will sign a 24 month lease agreement with Altaworx at a cost of
  - $1577 per month
  - $18,924 annual
Concerns

• VoIP is connected via the internet with redundancy
• As a secondary back-up for automatic failover we are keeping one phone line at
  – City Hall
  – Police Department
  – Fire Department
  – Public Works
  – Library
Concerns
Continued

- Just a few other businesses that use VoIP
  - USAA, Valero, NuStar, City of San Antonio, UTSA, and Center for Health Care Services
Time Frame

• Installation Time Line
  – Approximately 6 weeks
• Down time during conversion
  – About 5 minutes when phone numbers are moved
• This will occur only during hours when City Hall is closed
  – No interruption of phone services during normal work hours
• Testing will occur during hours when City Hall is closed

Janie Willman, City Secretary
Leon Valley Police Department
Found Property Policy

**Purpose:** The intent of this policy is to establish a procedure for disposing of lost, mislaid, or abandoned personal property that comes into possession of the City, in particular the Police Department. This policy provides guidelines for the distribution of property that is turned into the City.

**Policy:** The City may keep lost, mislaid or abandoned personal property that comes into its possession during the course of performing its official duties if the property is considered contraband or evidence in a criminal investigation. This property includes, but is not limited to, currency, bicycles, clothing and electronic devices. Items that will not be released are items which are illegal to own or possess, weapons, alcoholic beverages, food, medicine, etc. The Detective in charge of the case shall make the determination as to what is releasable and what is not. Property held as evidence or contraband, and which does not need to be released to any other law enforcement or other agency, will be presumed abandoned after it is no longer valuable as evidence and not claimed by its rightful owner.

**Guidelines:** The City and Police Department shall follow the guidelines set out below when disposing of lost, mislaid or abandoned property.

1. If an Officer or other City employee receives a call or other type of report of lost, mislaid or abandoned property, the Officer will make an incident report, being as detailed as possible in where the property was found, the condition of the property and any other circumstances which will help determine ownership. The Officer shall collect the property and turn the property over to a Detective in the normal departmental manner. If reported to a City employee, they shall turn it over to the designated Officer in charge of the Found Property Policy.

2. The report shall be titled “Found Property.” When the report is entered by the Police Department Records Clerk, the report will be assigned an active case to the Detective who manages the property room.

   a. Upon receipt, the Detective responsible for the property room shall make every effort to identify the rightful owner of the property and also attempt to ascertain if the property is stolen, contraband or evidence in a criminal investigation.

3. Property with an Identifiable Owner: when the owner of the property is identifiable, the Detective shall make a reasonable effort (via phone call, email or other written notification) to notify the rightful owner that his/her property is in the possession of the Police Department. If there is no response to the notification within thirty (30) days, the property will be considered abandoned.

4. Property with No Identifiable Owner: If the true owner of the property cannot be found and the property is not subject to confiscation by the Police Department, the Detective will compile a list, at the beginning of each month and, provide the list to the City Webmaster. This list will be published on the website for a minimum of thirty (30) days. The list will have a general description of the property and the name and telephone number of the Detective.
a. The minimum time the Detective will retain the property will be thirty (30) days. If, during these 30 days, the Detective has an inquiry about the property, the Detective will instruct the person to file a written claim for the property. The written claim shall have a description of the property and a statement explaining the persons’ claim to the property. The Detective will instruct the person that they have seven (7) calendar days to provide this claim from the date of inquiry. The Detective will evaluate whether that person is the rightful owner within seven (7) days of when the written claim is filed.

b. If, after 30 days no person makes a claim for property, the finder of the property may file a written claim for the property. Once this person is notified the Detective will advise them they have 30 days to claim the property. If the property is not claimed within 30 days, the property will be considered abandoned.

5. Property (other than currency) that is considered abandoned under this policy will be disposed of by the Police Department as deemed necessary. If a sale or auction of the abandoned items occurs, the proceeds shall be deposited into an account authorized by number 6 below.

6. Property that is currency and considered abandoned under this policy will be deposited into an appropriate City account and used as necessary as determined by the City Manager.

7. A City employee, who finds property while on-duty, is not eligible to make a claim to obtain ownership of any property identified by this policy.

8. If property is turned into the Police Department, was not reported as per this policy, and a claim is made the Detective will research the matter and determine if the property meets these criteria. If the property does, the Detective will then follow the procedures established by this policy.
Leon Valley Police Department
Found Property Policy

Tuesday, June 18, 2013
Found Property Policy

Currently there is no State law or City Ordinance/Policy dealing with found property
Found Property Policy

If found property is turned into the Police Department our first priority will be to return to rightful owner

If rightful owner cannot be identified policy gives direction
Found Property Policy

Property will be listed on Cities website
  • Minimum 30 days

If Police Department receives a claim within 30 days Detective will ask for a written claim
  • Due within 7 days

If no claim after 30 days, Detective will contacted finder and advise them they have 30 days to make a written claim
Found Property Policy

Examples of property that will not be returned to finder

- Alcoholic beverages, food, medicine, contraband, weapons
Found Property Policy

If no written claim after 30 days property is considered to be abandoned

- Abandoned property, other than currency, will be auctioned
- Currency and proceeds for auction will be placed into City General Fund

L.V. Library Children’s Wing

May was a month of rehab for restrooms, waiting out the weather, and then finally erecting the framing for the expansion. New toilets and sinks were installed, sheetrock went up, flooring went down, and painting was completed in the workroom and restrooms inside the building. Status reports and pictures were uploaded to the City website, and we realized that we had some followers interested in the construction. When one week went by without new pictures being posted, someone called in wondering why the construction had stopped. We assured them that the construction was continuing, but that electrical wiring and plumbing were just not exciting and did not photo well. A revised timeline was received from the contractor and staff is preparing for the eventual closing of the library for approximately one month in August. Meanwhile, Librarian Joyce Trent continues to investigate grant opportunities, to further furnish the space, and purchase books and other materials for the new shelves.

Leon Valley Hike & Bike Trail

The Quality Assurance Plan (QAP) was approved by City Council and we are waiting on TxDOT’s Office of Civil Rights to sign and return the MOU for the DBE program, before taking the Leon Valley Management Plan before City Council for approval. Once that is complete, TxDOT can release the Local Project Advance Funding Agreement (LPAPA), which mandates regulations specifically for this project. RFP&Q’s for the engineering and design of the Hike & Bike Trail were prepared and advertised. Staff received an email from the San Antonio Water System advising us of the need to contact them prior to placement of any improvements over their easement in Huebner Creek. We assured them we would be in close contact as the planning and engineering phase continues.
Bandera Rd Monuments

Bidding for construction of the monuments has been placed on hold until the rebranding committee has chosen a new logo. Once the logo has been approved by City Council, it can be incorporated into the final design and then the plans can be sent to TxDOT for their review and approval. Mrs. Flores was recently notified that the City of San Antonio has plans for the improvement of roadways at Bandera and Eckhart, so meetings will take place with their staff to assure our placement conforms to street designs. Completion of the structures should take place at the end of September.

Municipal Facilities Bond Project

The City Council approved an ordinance authorizing the City Manager to enter into negotiations with Bartlett Cocke Construction for the Construction Manager at Risk firm for the project. Once the contract has been approved by City Council, the firm can start their collaboration with the architect on a final layout.

The County was contacted regarding the purchase of the four lots needed to build the fire station and we are in the process of having the lots appraised and surveyed.

The new fire station layout has been created. Staff is reviewing the proposal and will submit their comments to the architect in early June.

VOIP Telephone System

One of the concerns City administration is facing will be working in City Hall while the main building is being remodeled. During that time, there will be a great deal of noise, such as jackhammers, saws, and hammering, possibly disrupting City operations.

By moving out of the building, the contractor would have free reign of the structure and would be able to save money by shortening the length of time on the job site. Staff is investigating a possible move to the Conference Center. While calculating all the necessary electrical and internet requirements this would entail, it was discovered that we could see significant savings at the present time by switching our telephone system this year to a Voice Over Internet Phone (VOIP) telephone system. The system should be operational this June or July, after all concerns have been addressed.
