He stated that the ARMA wished to continue to partner with the City of Leon Valley and to assist with temporary relief to the corridor although no funding from the State had been identified as of yet. She stated that in 2004, the contract went out for proposals. She explained that the contract was five years and the present contract has expired.

A motion was made to table a decision on M&C # 06-01-07 by Councilmember Dean, seconded by Councilman Reyna, until after the Council had a chance to further discuss the issue. After discussion, the motion was amended and withdrawn by both Councilmembers.

A motion was then made by Councilmember Dean, seconded by Councilman Reyna, to table a decision on the auditor’s services until after the City was able to publish a Request for Proposals and to review those proposals. Upon vote, the motion carried. Mayor Riley announced that the item was tabled.

Ms. Wallace indicated that the contract was time sensitive, as the City must have a contract before July 1st.

Community Development Director Smith addressed City Council presenting the particulars of Specific Use Permit Case #07-257, a request from Mesa Development Group, the applicant and property owner, for “New Construction”, to be located at 7600/7700 block of Eckhert Road, being Lots 11 and 43, Block I, CB 4446A, Linkwood Addition Subdivision. She noted that because this construction abuts a residential district, the new construction requires a Specific use Permit. Ms. Smith reviewed the surrounding zoning and the platting and zoning history for the property. She stated that the applicant’s site plan met the minimum requirements for site plan development, including parking and landscaping. She noted that the applicant had been granted two variances by the Board of Adjustment, on May 23, 2007, to the 25’ rear setback requirement (9’ encroachment leaving 16’ rear yard setback) and to the 20’ side yard setback (15’ encroachment leaving 5’ side yard setback) due to the shallow lot depth, and parking and Fire Department requirements. She noted that 24 letters were sent to surrounding property owners and two letters were returned undeliverable, and no letters were received in favor of nor in opposition to the case.

Zoning Commission Chair Guerra stated that on May 22, 2007, the Zoning Commission recommended approval of the case by a vote of 7:0, contingent upon the variances requested being approved by the Board of Adjustment.

Ms. Smith announced that Kevin Manner, the applicant was present in the audience for any questions.

block of Shadow Mist Drive, from R-1 (Single Family) to B-1 (Small Business), being a portion of Lots 6 and 7, CB 4430, Leon Valley Homesites Subdivision (Smith).

Community Development Director Smith addressed City Council explaining that the request, by applicant Guillermo Espinosa, was to rezone approximately 4.1032 acres of land from R-1 (Single-Family Dwelling) to B-1 (Small Business) zoning in the 6400 block of Shadow Mist Drive. Ms. Smith reviewed the surrounding zoning and platting history of the property. She reviewed the restrictions on and uses allowed in a B-1 (Small Business) zoning district.

Ms. Smith explained that there were several developmental issues with the property and the surrounding area that the applicant has been informed of and will be required to address before any certificates of occupancy can be issued: Board of Adjustment special exceptions, replatting, Specific Use Permit, and building permits. She stated that the property is located along Huebner Creek and most of the property is in the floodplain and in a floodway. She informed Council that 19 letters were mailed to property owners within 200 feet of the site with no letters received in favor of or in opposition to the case and no letters were returned as undeliverable. Ms. Smith announced that the applicant, Mr. Espinosa, was present to answer questions from Council.

Zoning Commission Chairman Guerra informed Council that the Zoning Commission voted 7:0 on May 22, 2007, to recommend approval of the case as it was consistent and compatible with the Master Plan and surrounding zoning and promoted the health and safety of the general public.

Applicant Guillermo Espinosa addressed Council stating that it was his intention to develop soccer fields on the site for children to learn the sport. Mayor Riley asked if the gate at the end of El Verde Road would remain closed; Ms. Smith stated that the locked gate would remain. Councilmember Dean asked if the applicant had plans for night lighting of the field; Mr. Espinosa stated that he planned for the fields to be open for soccer practice until about 9:45 p.m. and would need lights. In response to questions regarding lighting, hours, and parking, Ms. Smith stated that all of these items would be addressed in the Specific Use Permit public hearings.

Mayor Riley opened the public hearing at 8:20 p.m. and invited members of the audience to address Council on the case.

Resident Cynthia Rangel, 5900 El Verde Road, asked questions about proposed parking for the site and expressed her concerns that visitors of the proposed recreational facility will be using the narrow El Verde Road for parking.

Resident Rick Rangel, 5900 El Verde Road, addressed Council stating that the 200-foot notification to surrounding property owners was insufficient for this project and asked that the residents be informed so that they could hear how the applicant will address noise, lights, parking and traffic. He asked Council to table a decision on the matter until more residents had been informed about the case. Mayor Riley stated that the Specific Use Permit hearing would be the time to increase the area of notification of residents.

Seeing no one else, Mayor Riley closed the public hearing at 8:25 p.m.

He presented the maps of those areas which TXDOT had provided. Mr. Vick reported that the Business Alliance Committee and members of Council had submitted recommendations for signage as follows:

1. “Leon Valley Business District” signs on west Loop 410 - before the elevated ramp on the lower level; on west Loop 410 - before S.H. 16 (Bandera Road) lower exit, and east Loop 410 - from Ingram - add one Leon Valley Business District sign.

2. Lower level S.H. 16 (Bandera Road) - “Wurzbach Road”, two signs each on signal arms.

Mr. Vick informed Council that a private company has a contract with TXDOT that allows businesses to pay for additional signage that would add their names for fuel, lodging, meals, etc. on TXDOT signs.

Following Council discussion, a motion was made by Councilman Reyna, seconded by Councilmember Dean, to approve the Resolution and request as presented. Upon vote, Mayor Riley announced the motion carried.

He told Council that Helotes and Grey Forest received less costly offers from Balcones Heights for dispatch services. **Discussion Agenda**

**Discussion on appointment of members to the Superfund/EPA Advisory Group, a Citizens Advisory Group (CAG) (Lambert).**

City Manager Lambert updated Council stating that the Citizens Advisor Group (CAG) would be composed of representatives from the City of Leon Valley and area representatives who may have an interest in the Superfund/Environmental Protection Agency's work in Leon Valley. Mr. Lambert provided information on the persons contacted to be members of the CAG and asked Council to consider these names and he stated that a request for formal approval of the members of the CAG would be placed on the next City Council meeting agenda. He announced that the EPA, the Texas Department of State Health Services and the United States Geological Survey have declined to participate due to a variety of reasons. Mayor Riley announced that the CAG would be renamed as per a recommendation from the Environmental Protection Agency (EPA). Mr. Lambert stated that the EPA recommended more Leon Valley citizens be included in the CAG and he reminded Council that the CAG will meet quarterly.

Following discussion, Mayor Riley asked Councilmembers to provide their recommendations for appointment at the next meeting.

Councilmember Dean and Mayor Riley asked that the moneys used to pay for Elsa Dominguez be included in the expenditures to provide a better reflection of the Trade & Market Days true costs to operate. Ms. Caldera stated that she did not have that information with her, but that she would send the information to Council.

**Discussion on previous City Council actions regarding proposed elevated roads and tollways along S.H. 16 (Bandera Road) (Mayor Riley).**

Mayor Riley informed Council that she and the City Manager had been informed by TXDOT that Bandera Road in Leon Valley had been removed from consideration from regular funding from TXDOT and the Metropolitan Planning Organization (MPO) back in 1998-1999, when the City asked to get out of the MPO. She stated that after researching City records, three resolutions were found from 1999, 2005 and 2006 and no records were found that indicated that the City asked to have Bandera Road removed from normal funding considerations or for the City to be removed from the MPO’s 20-year funding plan. Mayor Riley stated that she wanted the City’s
position to be clarified. Mr. Lambert asked if Council wanted to formally ask that the City of Leon Valley be added back into the MPO’s regular funding considerations.

In answer to Council’s questions, Mayor Riley asked the Leroy Alloway, from the Alamo Regional Mobility Authority (ARMA) for answers to questions, after asking Council if they had any objections; there were no objections. Mr. Alloway explained that it was his understanding that while the Federal Highway Administration (FHA) was conducting the environmental impact studies for the next 4-5 years, the FHA would not grant any environmental clearance to do long term improvements on Bandera Road. He stated that safety improvements could be considered for environmental clearance from the FHA, but until the environmental study was completed no long term improvements were likely to be considered.

Council discussion continued as to whether the MPO could fund interim solutions for Bandera Road improvements while the environmental study was ongoing, whether the MPO might have funding available for those solutions, and if other environmental studies would be required for possible interim safety solutions along Bandera Road. Councilmember Nelson asked Mr. Alloway for additional information on the ARMA studies of a.m. and p.m. peak traffic flow on Bandera Road.

Mayor Riley also announced that TXDOT would be holding a public meeting on the environmental impact for Loop 1604 and other corridors on June 27, 2007 at the Alfazar Shrine Temple on Loop 1604.

Citizens to be heard.

Resident and former Mayor Marcy Meffert, addressed Council providing a summary of what happened in 1998/1999 when she was Mayor and the City was presented with three options for traffic congestion relief on Bandera Road: a “trumpet” traffic pattern, a flyover from Loop 410 to Mainland, and second flyover to go over Leon Valley. She stated that she told the MPO at that time to take the “flyover” out of the mix, and that the other options were not acceptable for the City. She stated that after advice from the Council and others, a compromise was deemed acceptable for a ramp from Loop 410 to Rue Francois. She stated that there never was any mention at that time of taking Bandera Road off the funding list. Mayor Riley thanked her for her comments.
