City Manager Lambert presented overviews of the FY 2010 budgets, providing details of the proposed revenues and expenditures. He stated that the budget: did not include any proposed increase in the ad valorem tax rate, reflected savings from the new group health insurance for employees, a decrease in the workers' compensation premiums, an increase in the retirement program, included no merit or longevity pay increases, included $200,000 in the Council’s budget for contingencies, and now included a 2.5% cost of living increase in pay for employees.

Mr. Lambert reviewed the adopted 2008 tax rates of other area cities, the estimated value of homes with their tax rates frozen, and stated that with the proposed tax rate of 0.527400, the average Leon Valley home would see a tax decrease in the next year of $1.79. Budgets were reviewed for each department and included the capital expenses to be funded in FY 2010: a utility vehicle for Public Works, sidewalk construction, air packs and a new defibrillator for the Fire Department, police vehicles to be funded from the Forfeiture Fund, and library books. Mr. Lambert stated that FY 2010 would be the 4th year of five-year water and sewer rate adjustment plan that will increase the water and sewer rates by 3%. Rates for water and sewer of area cities were illustrated to compare with those of Leon Valley. Consider action on M&C # 08-11-09 - a request to authorize the City Manager to enter into contract for professional services for website design, construction, and maintenance. (Lambert).

City Manager Lambert addressed Council stating that 17 proposals were received following the City’s solicitation of proposals from the public. He asked Council to consider three things: make an award, narrow the list and ask for interviews for those few vendors, or reject and revise the specs to accept new proposals. He reported that with a new company, the City would have to pay to have the site rebuilt and pay for the existing provider’s fees for continuing the site until the new site was rebuilt, which could take up to six months depending on the company selected. Mr. Lambert reported that the maintenance fees that would match the proposal’s requested 20 hours per week were not always quoted in each company’s proposal.

Councilmembers discussed any room for negotiation with the current website management provider, the number of hours to keep the website up to date, and the time it would take to rebuild any new site.

Council asked the owner of Emage Craft, Phillip Manea, who was present in the audience, if he would consider a lower monthly maintenance fee and Mr. Manea explained the work required to keep the site updated and fresh.

Discussion Agenda

Discussion on use of Pods in residential and commercial areas (Lambert).

Mayor Riley reported that she has received calls from residents about the number of PODS appearing throughout the City and she reported that she felt the PODS detracted from the appearance of the neighborhoods.

Community Development Director Flores explained that the City does not have regulations specifically for Portable On Demand Storage (PODS) units. She explained that other outside storage rules require the items to be behind a fence. She reported that Council could tighten regulations on outside storage through permitting, limiting the time PODS are allowed on site, or require these storage units to be behind fences. She reported that no other local cities were found to permit PODS, but did she reported on permitting restrictions used in one Pennsylvania city.

Council discussion followed on what restrictions are placed on roll-offs on commercial properties, considering a grace period to allow some use of PODS-type structures, pursuing a solution that would be line with the City’s mission statement, limiting the number of days PODS are permitted on residential sites, and why the units are used. It was recommended that staff return with a proposal for Council consideration.

City Manager’s report (Lambert).

City Manager Lambert presented information on the July 2009 revenue and expenditures. He reported that the City has a healthy fund balance but sales tax continues to be, on the average, 3% - 5% less than last year. He reported that community and conference center rentals remain good.

Discussion with Council continued concerning loss of revenue if any fees are waived because the use of one of the centers is for a public purpose. Council recommended that in the future, deposits be collected and that the group using the center with any fee waiver must clean the center so that the City is not responsible for cleaning the center and if the center is not clean, the deposit can be used to pay for cleaning.

Economic Development Director Ryan reported that the grant deadline for funds to replace the flooring in the conference center was due September 11, 2009, but if the grant is not successful, staff will ask for a budget adjustment for flooring replacement in the future.

Mr. Lambert presented highlights from each department for the month of July. Public Works Director Vick gave an oral presentation on the July 2009 monthly report for the Public Works Department and answered questions about Public Works projects for Council.

C. 2010 Contract Renewals.
Mr. Lambert asked Council if they wished staff to solicit proposals for the following services and explained the current contracts for each one:

1. City Building Inspector - B. Bealor.
2. City Health Inspector - D. Michel.
3. Engineer Services Consultant - SIA Engineering.
4. City Veterinarian - Dr. Meier.

Council expressed no objections to renewing the contracts presented by the City Manager. Council discussion recommended that changes be made to the City Code so that it will be consistent with state law regarding requirements for purchasing and contract requirements for bids/proposals in the future.

City Manager Lambert announced a new employee recognition program “Employee of the Month” and that the first award would be announced in September 2009.
