Consider M&C # 11-03-06 with attached Ordinance - appointing a new City Veterinarian and authorizing the City Manager to enter into a contract with the new veterinarian for animal care services.

Community Development Director Smith explained to Council that the request was to consider appointing Edmund Meier, D.V.M., of the Leon Valley Veterinary Clinic to serve as the City Veterinarian and authorize the City Manager to negotiate a contract with Dr. Meier pending approval by the City Council. Ms. Smith reviewed the history of the City’s animal care services. She further explained that the current City Veterinarian, Dr. Robert Spillers, notified the City that his clinic no longer wished to continue their contract with the City for animal care services, effective mid-November. She explained that after an intensive research and inquiry, only one animal care facility expressed a desire to contract with the City to provide these services, the Leon Valley Veterinary Clinic with Dr. Meier.

Ms. Smith explained that although any future fee changes and the actual contract between the City and the City Veterinarian will come back to Council for their consideration, an appointment to the position of City Veterinarian for Dr. Edmund Meier was needed to proceed with contract negotiations.

Following Council discussion, a motion was made by Councilmember Semmelmann, seconded by Councilmember Dean, to approve the request and attached ordinance as presented for a new veterinarian for animal care services and to authorize the City Manager to negotiate a contract with Dr. Edmund Meier for animal care services, pending Council approval. Upon vote, the motion carried unanimously.

The adjustment will allow for the purchase of a temporary structure, temporary security fencing and kennels for animals until Dr. Meier is able to expand his clinic to accommodate the additional space needed to provide for the City’s animal care services. Ms. Smith stated that once Dr. Meier’s expansion is completed, the temporary structures will be removed and the stray animals will be moved into their own permanent wing of the facility.

Following Council discussion, a motion was made by Councilman Reyna, seconded by Councilmember Dean, to approve the request and attached ordinance for a budget adjustment from the General Fund Reserve in the amount of $11,400, for a temporary animal shelter and related equipment and supplies as presented. Upon vote, the motion carried unanimously.
REGULAR MEETING OF THE CITY COUNCIL OF THE CITY OF LEON VALLEY, TEXAS, NOVEMBER 7, 2006, 7:00 P.M.

Consider M&C # 11-05-06 with attached Ordinance - Authorizing the City Manager to request use of the City Public Service Overhead to Underground Conversion Funds to relocate electrical power lines at 7249 Bandera Road.

Community Development Director Smith presented case particulars for this request explaining that the property was replatted to one lot in the Linkwood Subdivision. The property was razed and a Specific Use Permit had been delivered to the Department for a restaurant at the site.

Ms. Smith presented an overview of the balance of $836,000 in the Community Infrastructure Economic Development (CIED) funds. Ms. Smith explained that the original estimate to relocate the overhead lines was for $53,000, but now that cost has risen to $89,000 due to upgrading the cable to heavy duty and hand digging that was required at the project. She noted that CPS Energy has agreed to absorb the cost of the steel utility poles reducing the actual cost to $84,300 thereby making the CIED fund balance $747,000, if this request is approved. She explained that the money in the fund is replenished as CPS receives revenues, which are collected based on 1% of the previous year's monthly revenues and is estimated to be between $80,000 - $90,000 per year. Ms. Smith stated that new rules for the CIED funds required that the funds received beginning in 2005 must be used within a 3-year window or the City’s ability to use those moneys would expire. She explained that the proposed use of the CIED fund money was an appropriate use of the funds and supported the City’s Vision Statement.

CPS Energy representatives, Lisa Ponce and Roland Hinojosa, addressed Council answering questions about the new rules for the use of the CIED funds. Ms. Ponce explained that the funds from within the three-year period, starting in 2005, would be used first, but the funds within the City’s CIED fund account that were deposited prior to 2005, would remain in the City’s account and could be used at any time after the City exhausts the funds that were within danger of expiring. Mr. Hinojosa explained that as of February 2005, there was a balance of $1,000,000 in the City’s CIED Fund. Answering questions about the use of the funds for other economic development related projects, Ms. Ponce stated that a cost/benefit analysis would be done for any proposed projects that would use the CIED Fund to determine the benefits for both CPS Energy and for the City. Councilmember Maloy requested that information be sent to the City to clarify what types of economic development projects would be appropriate for CIED Fund use.

Mr. Hinojosa stated that the CIED Fund was used for overhead conversions, overhead reroutes, overhead to underground conversions, underground facilities, and for economic development projects, such as projects to improve aesthetics, providing there was a positive cost/benefit analysis showing a benefit to CPS from the project. He further explained that there was a policy written by CPS Energy on the CIED Fund use and he stated that projects that reduce peak utility demand, for both residential or commercial facilities, could be considered for CIED funds.

Ms. Ponce explained that any environmental project requires CPS Board consideration. Mr. Hinojosa explained that last money deposited to the City’s CIED fund would become the first money taken out of the City’s account.

Mr. Brummett explained that $190,000 will come from the CIED fund for the Huebner Creek Drainage Project. Ms. Ponce explained that once money in the CIED fund is earmarked for a project, the project doesn’t have to be finished before the three-year period expiration.
Mr. Hinojosa informed Council that CPS Energy was in favor of the Huebner Creek Drainage Improvements Project, but they felt that the charge of $35,000 for the contractor was an inefficient use of the CIED fund, as by the R.L. Jones Change Order. Mr. Hinojosa stated that the CIED funds were for the City to use and that CPS Energy would support the final decision of the City in regards to the R.L. Jones Change Order.

Following Council discussion, a motion was made by Councilman Reyna, seconded by Councilmember Rangel, to authorize the City Manager to request the use of City Public Service (CPS) Overhead to Underground Electrical Conversion Funds to pay costs for rerouting overhead electrical lines at 7249 Bandera Road. Upon vote, the motion carried unanimously.

Mayor Riley announced that the public hearing to consider repealing and replacing City Code Chapter 30, “Zoning” was postponed until the Regular City Council Meeting of November 21, 2006.

A motion was made by Councilmember Semmelmann, seconded by Councilman Reyna, to approve the postponement to the Regular City Council Meeting of November 21, 2006. Upon vote, the motion carried unanimously.

A motion was made by Councilmember Maloy, seconded by Councilman Reyna, to approve the appointments as presented. Upon vote, the motion carried unanimously.
