

**What happens after the permitted work has been completed?**

*An inspection is required for all types of work that has been permitted. A contractor/homeowner is responsible for scheduling a final inspection once work is complete. Inspections must be called in by 3:00 pm the workday prior to the requested inspection day. Please note our inspection window is from 10:00 am-2:00 pm Monday-Friday for all scheduled inspections. Cancellations must be called in no later than 8:00 am the day of the scheduled inspection.*

*Commercial Projects: Upon Final Inspection, a Certificate of Occupancy (CofO) will be issued authorizing occupancy of the structure.*
