

ADDENDUM NO. 1

PROJECT NAME: **PEDESTRIAN CROSSINGS - BID #2020-01**

DATE: February 14, 2020

This addendum should be included in and be considered part of the plans and specifications for the name of the project. The contractor shall be required to sign an acknowledgement of the receipt of this addendum and submit with their bid.

Addendum No. 1 is issued to notify, add, change and replace the following:

I. Pre-Bid Meeting:

1. Pre-Bid Meeting Agenda held on February 11, 2020 is attached and sign-in sheet.

II. General Questions/Answers:

1. The plans call for a wrap around RRFB. Only one manufacturer still makes that generation 1 type of RRFB. The new generation standard is an RRFB Light Bar with (2) 3" x 7" LED bars that are either single sided or double sided. Will you accept the new generation light bars? And will this project be single sided on all poles or double sided?
 - o *The City of Leon Valley will accept either wrap around or new generation standard RRFB light bar and is requesting double sided (RRFB and W11-2 signs) at the main cross walks.*
2. For the advance warning signs that are to turn on when the crosswalk is activated, the drawing shows BOTH an RRFB light bar and a 30" blinker sign. Do you want both on the advance pole set-up or do you want just the 30" W11-2 blinker sign or the RRFB light bar and a static W11-2 sign.
 - o *While the plan set calls for both RRFB light bar and blinker signs, the City of Leon Valley will accept only blinker signs (W11-2) at the advanced warning sign locations.*
3. Is a 13' or 15' Pelco pedestal base breakaway aluminum pole ok for this project?
 - o *Either 13' or 15' pedestal base breakaway aluminum poles would be acceptable for this project.*

Attachments:
