

**PUBLIC NOTICE**  
**CITY OF LEON VALLEY WATER AND SEWER SYSTEM**  
**DECLARATION OF INTENT TO CHANGE WASTEWATER RATES**

The City of Leon Valley is in the process of performing major repairs to the water system. The repairs consist of reconfiguring the San Antonio Water System (SAWS) water interconnection, capping two existing water wells, drilling two new water wells, upgrading the electrical service, and rehabilitating the above ground water storage tank. The existing wells have outlived their useful life and must be replaced. To pay for these repairs, water rates have been increased, effective with the October 2016 water billing cycle. For more information on these rate changes, you may call Yvonne Acuna, Utility Billing at 684-1391 x224.

**Water Charges**

Meter Size	Deposit Amount	Residential Meter Fee	Non-Residential Meter Fee
5/8"	\$70.00	\$11.20	\$12.30
