- Staff applied for a grant to acquire the services of a Forester. The grant will pay a salary for about three years. The Forester would be used to monitor Oak wilt disease, review tree removal requests, assure tree permits are being inspected, determine the condition of city trees in various parks, and make recommendations for removal or replacement of trees.
- Staff applied for a grant for a Hike & Bike Trails Master Plan from the AAMPO. This grant will pay \$100,000 for a planning document for the city's trail and shared path system. The city does not have a matching funds requirement, so if granted, the work would be performed at no charge to the city.
- Staff applied for a grant from the AAMPO for the Hike & Bike Trail Segment 3. The trail will connect at Evers Road and align with Huebner Creek up to Balky at the northern city limits line and connect to the City of San Antonio's trail system, which is already in engineering and design.
- We were awarded **\$590,423** for this replacement project, which will assist in connecting the residents on Locker Lane to the City's sewer system.

## FIRE DEPARTMENT

- Please remember that the LVFD is always willing to help change smoke detector batteries for residents who need assistance, please contact us and we will schedule an appointment.
- The Fire Department needs non-perishable food, dry goods, diapers and baby formulas to replenish our Community Care Box. Please donate what you can and if you are in need, we are here to help.
- The Fire Department has started their annual School Supply Drive. This drive aims to provide necessary school supplies to students in Leon Valley that may not have the means to purchase them. The Fire Department will have yellow collection barrels at the fire department, city hall and the library. We will be collecting through September 1st. Please stop by and donate, every single item helps a child.
- Low hanging trees over the road can impede emergency responders and damage emergency vehicles causing thousands of dollars in damage. Trees tend to hang even lower during rain. The current city ordinance requires trees hanging over the road to have a clearance of 14 feet. Help our department ensure responding emergency vehicles can safely travel our street.
- The Fire Department would like to remind residents that in the event of an emergency; all emergency responders must be able to see your address in front of your residence. These numbers should be a contrasting color to the background and large to be easily seen from the road. If you can, turn on your outside/porch light.
